REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

With the support of our superintendent and the Richland One Board of School Commissioners, W.A. Perry has made great strides in its mission to improve the achievement of all students. Last year's PASS scores indicated improvement in the areas of math, science, and English/Language Arts. Our Spring 2012 MAP scores revealed increases in the number of students reading on grade level and meeting their target growth goals in English/Language Arts and Math.

We continue to use Making Middle Grades Work (MMGW) as a framework for continuous school improvement. Our teachers participated in year-long, intense professional development in Differentiated Instruction, Culturally Responsive Teaching, and Balanced Literacy. As a result, we have seen great improvement in instructional delivery.

W.A. Perry is committed to meeting the academic needs of all students by addressing their individual needs. Through reading and math interventions, such as Read 180 and FASTT Math, we are able to identify student academic needs and provide strategic assistance. We also provide Extra Help opportunities during Early Bird, Lunch Bunch, the After School Program, and Saturday Blitz. Small group instruction provided the intense intervention needed to meet t students' individual needs.

Students, faculty and staff of W.A. Perry were recognized on numerous occasions for their accomplishments this year. We were also recognized by Sustainable Midlands for our efforts to create a sustainable, healthy community. The US Department of Agriculture awarded us a Silver Medal in the US Healthier Schools Challenge. The Aerospace Education Excellence Award was presented to our Aerospace teacher and students. Our students placed second in the 2012 Future City Engineering Competition. We also had numerous students recognized for excelling in the performing arts as well as academically.

We continue to benefit from strong community partnerships. Volunteers from Trinity Episcopal Cathedral have supported our school by providing afterschool enrichment activities for the last 10 years. Many other organizations, parents, and community members provide W.A. Perry with the support we need to reach our goals.

This year, we began implementing a school-wide focus on Science, Technology, Engineering, and Math (STEM). Our STEM program will focus on providing rigorous and engaging curriculum and instruction while integrating technology into all courses. We are introducing new technology, applied science, and health science courses. We will also focus on college and career exploration and readiness. We believe our new STEM focus coupled with our continued commitment to improving teaching and learning will lead to significant increases in student achievement. The future is quite promising at W.A. Perry Middle School.

Dr. Quantina T. Haggwood, Principal Mr. Mendarrus Washington, SIC Chairperson
